ABOUT ICOCE

2027 11th International Conference on Civil Engineering will be held in Singapore during April 7-10, 2027, supported by GEOTECHNICAL SOCIETY OF SINGAPORE (GeoSS).

Since its inception in 2017, the International Conference on Civil Engineering has grown into a distinguished annual forum for researchers, engineers, and industry professionals to exchange cutting-edge ideas and advancements in the field. The conference began its journey in Hanoi, Vietnam (2017), followed by successful editions in Da Nang (2018) and Hue (2019), establishing a strong tradition of academic excellence in Southeast Asia. After a brief hiatus due to COVID-19, the series resumed in 2023 with the 7th edition held in Singapore, marking a new chapter in a world-class hub for innovation and infrastructure development. Building on this momentum, the conference has been continuouly hosted in Singapore from 2024 through 2026. With its strategic location and reputation as a global center for engineering and technology, Singapore provides an ideal environment for fostering collaboration and addressing emerging challenges in civil engineering, from sustainable construction to smart infrastructure. The forthcoming editions aim to build on past successes, attracting a diverse international community to shape the future of the built environment.

PUBLICATION

Springer

Conference Proceeding: Submissions will be peer reviewed by conference committees, and accepted papers of ICOCE 2027 will be published as international conference proceedings in Springer book series: Lecture Notes in Civil Engineering, which will be submitted to EI Compendex , Scopus, Inspec, SCImago, ZbMATH etc for indexing.

PUBLICATION HISTORY

The proceedings of ICOCE 2026 will be published in a volume of Lecture Notes in Civil Engineering soon.

Proceedings of ICOCE 2025 | Volume 714 of Lecture Notes in Civil Engineering: https://link.springer.com/book/10.1007/978-981-19-3983-9, indexed by EI Compendex and Scopus.

Proceedings of ICOCE 2024 | Volume 539 of Lecture Notes in Civil Engineering: https://link.springer.com/book/9789819759095, indexed by EI Compendex and Scopus

Proceedings of ICOCE 2023 | Volume 371 of Lecture Notes in Civil Engineering: https://link.springer.com/book/10.1007/978-981-99-4045-5, indexed by EI Compendex and Scopus

CALL FOR PAPERS

The conference is soliciting state-of-the-art research papers in the following areas of interest:

- Architecture & Urban Planning
- Structural Engineering
- Road & Bridge engineering
- Geotechnical Engineering
- Landslide Hazard Mitigation
- Hydraulic Engineering
- Slope Stability
- Coastal Engineering
- Engineering Management
- Soil-Structure Interaction
- Computational Mechanics
- Construction Technology
- Building Materials
- Hydro-Environmental Systems
- Computer Simulation and CAD/CA
- Soil and Water Sciences
- Fire protection Engineering
- Water resources Engineering
- Irrigation Engineering
- Municipal and Urban Engineering

IMPORTANT DATES

2026/11/20 **Deadline of Submission**

2026/12/10 **Notification of Acceptance**

The earlier you submit your manuscript, the sooner you will receive the review results.

SUBMISSION METHOD

All authors should prepare full version of papers with minimum length of 8 pages and submit via https://confsys.iconf.org/submission/ICOCE2027
